ANSWERS TO POSSIBLE QUESTIONS

Question: Can you provide examples of volunteering?

Answer: These are some examples, but not limited to these examples. Providing researched places with golf, hotel, and group space for future locations. Detailed visits to quoted locations, wearing the gopher mascot, respectful event photography, event assistance, apparel work, tee marker management, creative ideas, SNN contributions, organizing nighttime activities, measurable Uber time, medical contributions, roommate flexibility, etc..

Question: Can you elaborate more on rookies being included?

Answer: We collectively aged after 20 years. Some of us have adult children. We have friends and family that will retire with more personal time. There are prioritized spots for rookies each year and possibly room for more in the overall roster. The new process requires referrals to recommend a rookie proactively after they have created an account on Poststats.com, but weeks before Phase 2.

Question: What specific order is used for the Roster Worksheet?

Answer: A full explanation with detail will be provided with the Roster Worksheet during registration.
